

Professional Plumbing & Heating

Professional Plumbing & Heating was founded in May of 1998 by Gary Kicinski. After running a family plumbing business for over 20 years it was time to make some changes. We are located in Brentwood and are in the business of making your home or office comfortable and efficient. Our plumbing and heating company offers complete repairs, maintenance, and installation services.

Our services include general plumbing and HVAC, identifying any problems and making recommendations, providing you with an on-site estimate, and completing the job in a timely manner. We can resolve any plumbing or heating problem quickly with service from our master plumbers.
